Some jobs are just too tough for your average fast-talkin' high-tech gun-for-hire. Sometimes...to get the job done right...you need someone crazier than a sack'a ferrets. You need Wade Wilson. The Crimson Comedian. The Regeneratin' Degenerate. The Merc with a Mouth...

DEADPOOL

Tired of being feared and hated as a mercenary, recently Wade has been touring the country trying to figure out what it takes to be a hero. Needless to say, things haven't been going well. In San Francisco Deadpool tried to join the X-Men but was only offered "probational membership" and after a publicity stunt gone wrong, no membership at all. In New York his plans to learn from Spider-Man were thwarted by a mercenary-hunting primate known only as Hit-Monkey. In Las Vegas his attempt to become the protector of the city ended abruptly when his employers made the mistake of offering a job with "responsibilities." Later it seemed Wade finally found a place on the Secret Avengers with Steve Rogers, Black Widow, and Moon Knight, only to discover that his fellow heroes were only clones. Most recently he saved a clan of peace-loving vampires from their bloodthirsty counterparts but in the end failed to get the girl. And when you think about it, what's the point of being a hero if you don't get the girl?
